Subject: FYI and Next Steps: EPA Water Sample Results and Wisconsin DNR Nitrate Fact Sheet
Attachments: S01 [Ex. 6 Personal Privacy (PP)] Nitrate in Drinking Water Fact Sheet - WDNR.pdf

Hi Tom and Jenny,

—

Cheryl has spoken with 4 of the 5 residents whose private wells were sampled for nitrates and has conveyed the information below.

As next steps, we are going to express mail the results and nitrates factsheet to the 5th resident who does not have an email address and who Cheryl has been unable to speak with (she has left voicemails). The data results memo will have similar information as Cheryl's email below.

Also, as far as data sharing, Cheryl is following up with Chuck Mikalian to get that done.

I will send a copy of the final package to the 5th resident once it's completed. Thanks!

Best wishes,
Heather

Subject: EPA Water Sample Results and Wisconsin DNR Nitrate Fact Sheet

Hi [Ex. 6 Personal Privacy (PP)]:

—

I have attached the results of the water samples EPA collected from your basement bypass on May 3rd, 2018.

I am also attaching Wisconsin Department of Natural Resources Fact Sheet on Nitrates. It explains what nitrates are, what are the risks if nitrates are in your well, health risks, who you should contact if you have questions, and other pertinent information.

As you are aware Juneau County Health Department has conducted its only sampling of private wells and is interested in obtaining the sample results that EPA collected on May 3rd. Barb Theis is asking if you would send the results to her by e-mail at btheis@co.wood.wi.us. If you have any questions, you can contact me at 312-886-1463 or by e-mail at Burdett.cheryl@epa.gov or Barb Theis at 608-847-9373.

Sincerely,

Cheryl Burdett
